# Life Protected Cleaner (LPC) Hard Surfaces Usage Guidance

Wash hands, put on gloves and ensure gloves are dry. Remove loose debris

Take one layer from LPC pack and remove required sheets (tear across perforation). Place remainder back in pack. (Ensure gloves dry)

Fill container with water, add 1 sheet per litre and stir/shake until fully dissolved

Dampen applicator with solution and wipe in 'S' or 'figure of 8' pattern. From clean to dirty

Replace the applicator and cleaning solution as required throughout the cleaning process

Dispose of used cleaning solution down a sink or drain (if required). Remove gloves and wash hands

Application	Usage rate (Litres per sheet)
Hard Surfaces	1
